

2015 County Health Rankings: Barry County

Please see www.countyhealthrankings.org for interactive and detailed data for the state of Michigan and each of 82 Michigan counties examined.

Indicators **highlighted in red** are those in which the county rate is the **same** or **worse** than the Michigan rate.

Barry County ranks 21st in Michigan for **Health Outcomes**. **Health Outcomes** measures the sickness and death that Eaton County is **currently** experiencing.

Barry County ranks 18th in Michigan for **Health Factors**. **Health Factors** combines a variety of measures that are known to influence **future** health outcomes. While Barry County ranks high in Social and Economic Factors, it ranks lower in the Physical Environment and Health Behaviors.
