

COMMUNICABLE DISEASE REPORTING

2022-2023

Barry-Eaton District
Health Department

Be Active • Be Safe • Be Healthy

COMMUNICABLE DISEASE REPORTING REQUIREMENTS

Michigan Law requires schools and childcare centers to report specific diseases according to Act No. 368 of the Public Acts of 1978, which states that physicians, laboratories, primary and secondary schools, child daycares, and camps are required to report the occurrence or suspected occurrence of any disease, condition, or infections as identified in the Michigan Department of Health and Human Services (MDHHS) CD rules to your LHD within 24 hours.

It is important for schools to report to their LHD for a number of reasons, including:

- To identify disease trends, outbreaks, and epidemics
- To enable preventative treatment and/or education
- To target prevention programs, identify care needs, and allocate resources efficiently
- To inform epidemiological practice and research
- To evaluate the success of long-term control efforts
- To assist with local, state, national, and international disease surveillance efforts

MANAGING COMMUNICABLE DISEASE IN SCHOOLS

Guidance from Michigan Department of Health and Human Services and Department of Education

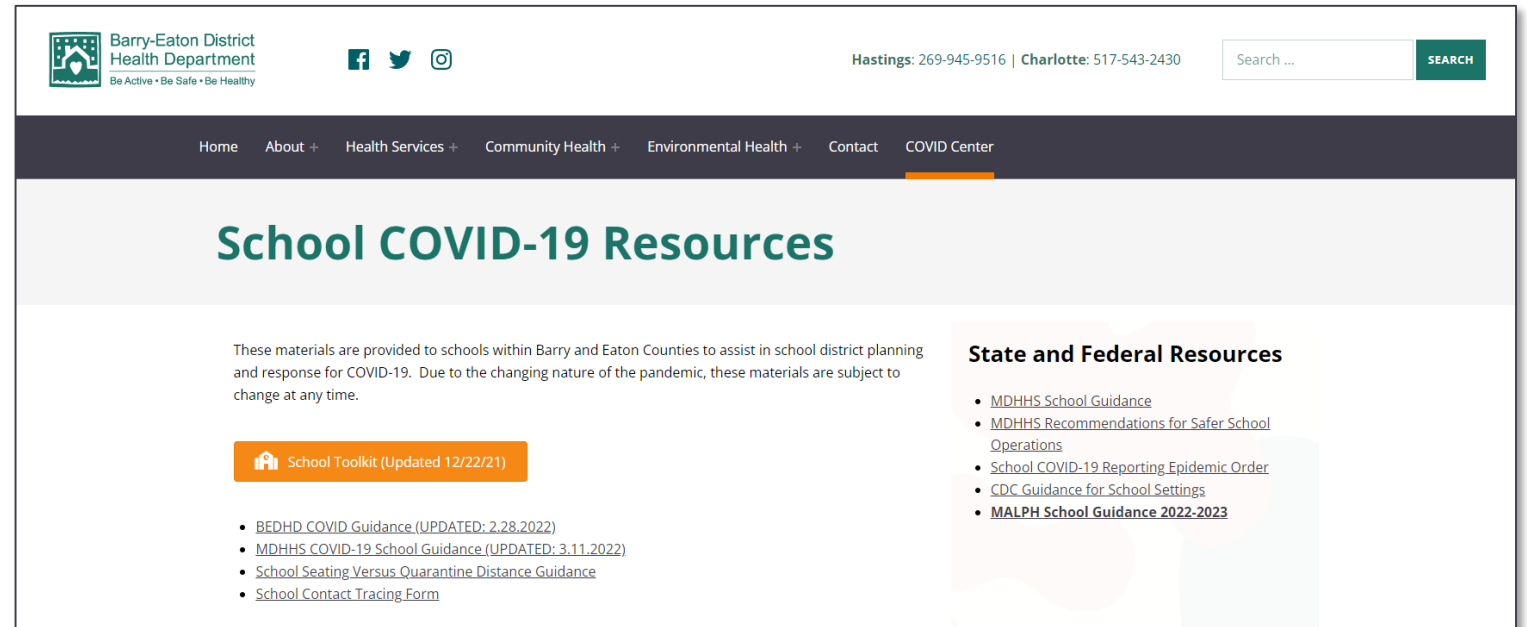

- <https://bit.ly/3RdXZ1p>
- Schools can play a major role in helping to reduce or prevent the incidence of illness among children and adults in our communities. Encouraging good hand hygiene and following cleaning recommendations contribute to a safe and healthy learning environment for children. When schools report illness to their local health department (LHD), public health specialists can assist schools with disease prevention and control guidance. This document provides schools with general information on what steps they can take to prevent and control communicable disease.
- Concise guidelines for identifying, reporting, and responding to an illness, infection, or disease outbreak in school.

MANAGING COMMUNICABLE DISEASE IN SCHOOLS

BEDHD COVID-19 Resources:

COVID-19 Workplace Guidance

When can I get my staff vaccinated?

If you are interested in hosting a COVID-19 vaccination clinic for your workplace, please contact Milea Burgstahler at mburgstahler@bedhd.org or 517-541-2644.

Questions for BEDHD regarding the vaccine can be emailed to covidvaccine@bedhd.org.

Provide your After-Hours Contact Info

It's important that the health department can reach someone urgently about any potential COVID-19 exposures at your worksite. We often learn about new cases later in the day or on the weekends. Please [click here](#) to provide us with the best After-Hours contact information for your business or organization.

QUESTIONS TO ASK PARENTS/GUARDIANS WHEN REPORTING AN ILL CHILD.

Instruct parents / guardians to leave as detailed as possible message regarding their student's absence.

- Exact nature of illness
- Onset of symptoms
- Vomiting?
- Diarrhea?
- Fever?
- Sore throat or Cough?
- Loss of taste or smell?
- Was child seen by doctor?

COMMUNICABLE DISEASE REPORTING WEBSITE

County Specific Sites

- For reporting schools and daycares in **Barry County**
 - <https://www.communicablediseasereporting.com/barry>
- For reporting schools and daycares in **Eaton County**
 - <https://www.communicablediseasereporting.com/eaton>

The screenshot shows a web browser window with the address bar displaying "communicablediseasereporting.com/barry". The page header features the Barry-Eaton District Health Department logo, which includes a house icon with a heart inside. The main heading is "Communicable Disease Reporting". Below this, a paragraph of text provides instructions: "Please call the Barry-Eaton District Health Department 269-798-4125 within 24 hours if any of the following illnesses are confirmed: COVID 19 , Measles, Mumps, Rubella (German measles), Pertussis (Whooping cough), Meningitis (viral or bacterial), Hepatitis A or B, Varicella (chickenpox), Tuberculosis (TB), Haemophilus influenzae type B, Encephalitis or an unusual occurrence or outbreak of any disease or infection." A login form is centered on the page, containing two input fields: "User ID:" and "Password:". Below the "User ID:" field is a blue link "Forgot User ID?". Below the "Password:" field is a blue link "Forgot Password?". A blue "Sign In" button is positioned below the password field. At the bottom of the form area, there is a blue link "Hints and Tips for Using Communicable Disease Reporting". The footer of the page contains the text "Copyright © 2022 KKzo, LLC. All rights reserved."

Communicable Disease Reporting

For your convenience, our reporting website allows you to enter your communicable report for last week through Tuesday of this week. If you had no illnesses to report for a week, then you are to check the 'Nothing to Report' box in Section 1 on your online form. Your data must be input by Tuesday to keep your facility in compliance with the State of Michigan's requirements.

Weekly Communicable Disease Reporting

- [Enter report for the current week, ending Friday, August 19, 2022](#)

COVID-19 Reporting

Different than the weekly reports you submit above, submitting a COVID-19 report to the health department is sent immediately after you click the Submit button on the following page.

Once you click the link below to create a report, you will a limited time to complete the form. Please collect any close contact information before continuing.

- [Create new COVID-19 report](#)

WEEKLY CD REPORTING: SECTION 1

Section 1:

(*) Required data

Week ending Friday, August 19, 2022

Nothing to Report

If you select this box, no other data entry is required. After clicking in this box, go to the submit button at the bottom of this page and click it.

* Facility Population:

Demo Elementary School

123 S. Main

City 1, MI 45000

Phone: 555-4321

E-Mail: someone@demoschool.edu

Keep Facility Population Updated!

- If there are no illnesses to report
 - Select the box indicating Nothing to Report
 - Submit button at bottom of page
 - YOU ARE DONE!

WEEKLY CD REPORTING: SECTION 2

Immediate Reporting of Serious Communicable Disease or Outbreak

- In addition to reporting aggregate and individual cases, call your local Health Department **IMMEDIATELY** (517) 541-2641 to report any of the following serious illnesses:

Measles
Mumps
Rubella
Chickenpox

Pertussis
Haemophilus Influenza Type B
Hepatitis
Meningitis

Encephalitis
Tuberculosis

****NOTE: COVID
Cases will be
reported in their
own form NOT
Section 2**

- Unusual disease occurrences and outbreaks are also **IMMEDIATELY** reportable to your LHD. An outbreak is defined as any increase in a certain type of illness. Note: if you are not certain an illness needs to be reported call your health department representative for further assistance.
- **Call our Case Investigation Line to report outbreaks: (517) 541-2641**

WEEKLY CD REPORTING: SECTION 3

- Fill in weekly total for each of the sections.
 - Influenza-like -- fever PLUS sore throat, cough and / or body aches
 - Gastrointestinal – vomiting and / or diarrhea
 - Unknown – Parents left no reason, “just not going to be in today” or “sick”

Section 3:

Please include the NUMBER of cases. Do not list individually in the section above.

Influenza Like Illness (Respiratory Flu):

Any child with bronchitis, pneumonia, or fever and any of the following symptoms: sore throat, cough, generalized aching in the back or limb muscles. **Vomiting and diarrhea alone is NOT respiratory flu.**

Gastrointestinal Illness ('Stomach Flu'):

Any child with vomiting and/or diarrhea for 24 to 48 hours (24-hour flu, winter vomiting disease or norovirus)

Unknown Influenza ('Flu'):

Parent reports 'my child has flu' **AND** no other symptom information available

WEEKLY CD REPORTING: SECTION 4

- Record specific illness/diagnosis that is reported by parent/guardian
 - Should not be reported in this section if symptoms fit into section 3
- See list provided in section 4 or add to the “other” box provided
 - List anything reported to you that does not fit into section 3 or is not already specifically listed in this section.

Section 4:
Please include the NUMBER of cases. Do not list individually in the section above.

| | | | |
|-------------------------|----------------------|--------------------------------------|----------------------|
| Cold/Bronchitis: | <input type="text"/> | Sore Throat (only): | <input type="text"/> |
| Fever: | <input type="text"/> | Scarlet Fever / Strep Throat: | <input type="text"/> |
| Fifth Disease: | <input type="text"/> | Pink Eye: | <input type="text"/> |
| Lice: | <input type="text"/> | Scabies: | <input type="text"/> |
| Impetigo: | <input type="text"/> | Ring Worm: | <input type="text"/> |
| Mononucleosis: | <input type="text"/> | Other: | |
| | | Disease Name: | <input type="text"/> |
| | | Disease Count: | <input type="text"/> |

WEEKLY CD REPORTING: SECTION 5

- Mark this box if school was closed due to excessive illness related absences.
- Please contact the Health Department in the event of a necessary closure due to illness.

Section 5:

Did school close this week due to excessive absences? Yes No

Don't forget to submit your report.

- Select submit to send report to the Health Department.

Student/Staff Information

* = required data

1) COVID-19 Positive Case (First and Last Name) *

2) COVID-19 Positive Case DOB *

3) Parent/Guardian Name *

4) Parent/Guardian Phone *

5) Parent/Guardian E-Mail *

COVID-19 REPORTING: CLOSE CONTACTS

- If you complete the Close Contacts section of the form, you DO NOT need to email us the contact tracing spreadsheet that was used in previous years.
- BEDHD is not currently requiring contact tracing. We may require it depending on MDHHS guidance or in some outbreak situations.

Close Contacts

A close contact is someone who was within 6 feet (about 2 arms' length) of an infected person during their contagious period* for at least 15 minutes, or for a total of 15 minutes in a 24 hour period, with or without wearing a masks. Individuals identified as close contacts must quarantine for 14 days after they were last in contact with an infected person.

For schools that use less than 6 feet between students in classrooms, the definition of close contacts should not change. Students sitting less than 6 feet next to another student or person diagnosed with COVID-19 for a total of 15 minutes or more should quarantine at home.

*Contagious Time Period: A person with COVID-19 is considered contagious starting from 2 days before they started having symptoms(or if they never have symptoms, 2 days before their COVID-19 nasal/throat swab test was performed), and continue being contagious for at least 10 days.

14) Were mitigation measures in place in the classroom? *

Yes No

15) Are there any Close Contacts to the COVID-19 positive individual? *

Yes No

If you selected Yes, please complete the next question.
If you selected No, please [skip next question](#).

16) List any close contacts here

These individuals must quarantine for 14 days after they were last in contact with the positive person. Even if the close contacts test negative, they must complete the full 14 days of quarantine.

| | Date of last contact with the positive person * | Close Contact's Name (first and last) * | DOB | Phone Number * | E-Mail * | Parent/Guardian Name * | Address * | County (if |
|---|---|---|-----|----------------|----------|------------------------|-----------|------------|
| 1 | | | | | | | | |
| 2 | | | | | | | | |

COVID-19 REPORTING: STAFF & STUDENT GROUPS

- Please use **Question #22** to list:
 - If the case is a staff member or student
 - What grade the student is in & their teacher's name or classroom #
 - Bus numbers, sports teams, or other significant groups.

22) Please share any other information that could be helpful to know at this time.

DEADLINE TO REPORT

- Reports are due by the end of the day every **FRIDAY**.
- **Automated** reminders are emailed every Friday morning and Monday morning.
- If a holiday falls on a Friday or a Monday and the school will be closed, the Report is due the previous day, or before the holiday break/weekend.
