I hereby apply for this service and have the authorization to do so. All information provided is accurate to the best of my knowledge. I understand that any authorized sewage or well system permit only authorizes construction of the system and agree the sewage system and/or well will not be used until final approval is given. I agree to comply with the requirements of the BEDHD Sanitary Code and the applicable permit. *I understand in the event that this well will produce 70 gallons per minute or greater (alone or in combination with other wells on this property) that it is the well owner's responsibility to use the Michigan Department of Environment, Great Lakes, and Energy's online [Water Withdrawal Assessment Tool](#) to determine if this well will create an Adverse Resource Impact to a nearby surface water body. Further, I understand that I may contact the EGLE for additional information regarding water withdrawal. **I will contact MISSDIG to have the utilities marked.**

Instructions for Completing Residential Sewage and/or Well System(s) Application

Application will only be accepted if it is complete and includes all required documentation as noted below.

Please contact the corresponding Environmental Health Office with any questions.

For all applications:

- a. Check prior records & maps for helpful property information and for assistance in creating a site plan.
 - **EH Office** – previous site evaluations, well/septic permits, finals, etc. Email: BEDHD-EH@bedhd.org
 - **Barry County GIS** – parcel maps and property data: [Fetch GIS \(app.fetchgis.com/?currentMap=barry\)](https://app.fetchgis.com/?currentMap=barry)
 - **Eaton County GIS** – parcel maps and property data: [Parcel Viewer \(arcgis.com\)](https://arcgis.com)
- b. Large or blueprint size plans larger than 11"x17", please submit them to the office via email (see above)
- c. The contractor/owner must contact Miss Dig (811) or (800) 482-7171 to have underground utilities marked before digging.

A. Site Evaluation

- a. Completed application & survey (if available).
- b. Preliminary site plan drawn to scale showing proposed structures on the property including house, driveway, garage/outbuilding(s), well & drainfield. Keep in mind that desired locations may need to change due to site conditions. This requirement may be waived if the evaluation is for speculative purposes with no home construction planned.
- c. Backhoe & operator required onsite for evaluation.
- d. Recommend owner/authorized representative be on site to make decisions regarding home and sewage system locations.
- e. Fee is due when application is submitted.

B. Sewage Permit – New

- a. Completed application-must indicate accurate # of bedrooms.
- b. Site plan drawn to scale that includes proposed house and well & septic system location details. *
- c. Survey and legal description.
- d. Fee is due when application is submitted.

C. Low-Pressure Dose Mound (RDOSPS) Permit

- a. Completed application-must indicate accurate # of bedrooms.
- b. Site plan drawn to scale that includes proposed house and well & septic system location details. *
- c. Survey and legal description.
- d. Fee is due when application is submitted.

D. Alternative System Plan Review & Permit – New

- a. Completed application.
- b. Preliminary designer layout (may be emailed to office)
- c. Fee is due when application is submitted.

E. Sewage Permit – Replacement

- a. Completed application-must indicate accurate # of bedrooms
- b. Site plan drawn to scale that includes house and well & septic system location details. Be sure to show location(s) of existing & proposed septic system(s) *
- c. Backhoe & operator required onsite for appointment.
- d. Fee is due when application is submitted.
